The Chapter will recognize the graduates of the Youth Aviation Program (YAP) and the youth who completed the 2022 Drone Class. Our mission is to reach area under-represented and underserved youth, ages 13-18 years of age and to offer a complete education to area youth who qualify for the YAP Program.

The goal for 2022 is to raise a minimum of \$100,000 towards the pilot certification training of ten underrepresented and underserved students. We are looking forward to giving more students the opportunity to co-pilot small planes during actual flight. In the past, private pilots donated their planes, time, fuel and all resources needed to make this program a success for participating eligible youth. Thank you in advance for your support of this Non-profit organization. Tax deductible donations provide a source of income to support youth programs.
